Multi Di@g Office usage notes

During installation, when Multi-Di@g configuration window appears, you should set *Communication interface* to USB and set *VCI serial number* to **A070026**:

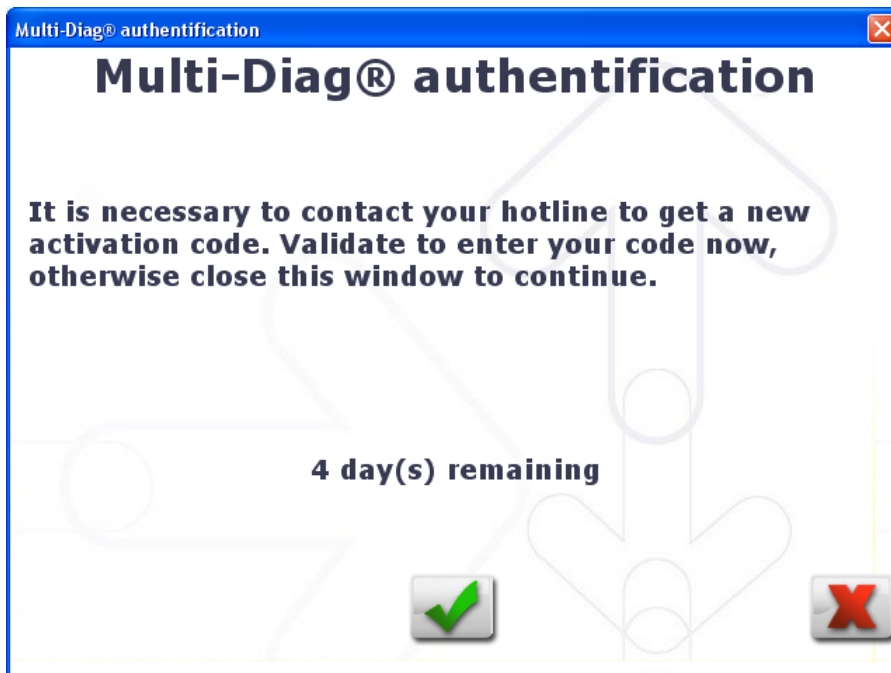

MSN: sales@autoobd2.de

Skype: [AutoOBD2.de](https://www.skype.com/en/contacts/voice/AutoOBD2.de)

Yahoo: autoobd2de@yahoo.com

www.autoOBD2.de

After installation, MultiDiag shows message asking to get activation code:

Press green button and you will see window asking for code. Please contact us with the code (18-...) we will send you back the correct password to enter:

MSN: sales@autoobd2.de

Skype: [AutoOBD2.de](https://www.skype.com/en/contacts/voice/AutoOBD2.de)

Yahoo: autoobd2de@yahoo.com

www.autoOBD2.de

During the diagnostic with the device connected, warning about 0 days left will appear. Just check the mark "Do not display this message again" and continue the work, everything will be working ok.
